

No Ordinary Life (feat. Angela McCluskey)

Morgan Page

You could change your world right now
You could take her hand somehow
You could make this life for real
You could learn to really feel
Well, I know it's right
To feel what I am feeling
Cause you're the only one I'll understand
You're a cut above the ordinary life This is no ordinary life
We got the moon
We got the stars
We got the sun
Take my hand and run
Why don't you surprise me?
Oh, why don't you surprise me?
You could change your world right now
You could take her hand somehow
You could make this life for real
You could learn to really feel
Well, I know it's right
To feel what I am feeling
Cause you're the only one I'll understand
You're a cut above the ordinary life
This is no ordinary life
We got the moon
We got the stars
We got the sun
Take my hand and run
Why don't you surprise me?
Oh, we got our chance
We can run
Let's take a moment, get it right This is no ordinary life
Take my hand and run
This is no ordinary life
