

# Let Go

## Lalah Hathaway

Telling me what you gon' do  
pointless cause you don't come through  
wasted breathe and words on you  
i've done all i can do  
it's true one time i let you under my skin  
but you overstayed your welcome na na na nana  
planned the tricks you scandalized  
you make your moves you try to hide  
cause i began to realize all of your seldom ways  
it's true i've made up my mind  
your wrong for me by your side  
the love i know but you'll never find  
that i'm not in your picture  
let go baby  
gotta let it go  
don't you let it slow your roll  
hold on to the words (i gotta)  
let go baby  
don't you cry no more  
for you remain in control  
baby let go  
let go (shine shine)  
let go  
so to keep it real and true  
i'ma do what i'ma do  
best do the same thing too  
(right now it's time to move on)  
i can't get used to being a pawn in your love game  
you won't have me again na na na nana  
let go baby  
gotta let it go  
don't you let it slow your roll  
hold on to the words (baby baby)  
let go baby  
don't you cry no more  
for you remain in control  
baby let go  
let go 10x  
baby baby da di da di dada  
baby let go  
let go baby gotta let it go  
don't you let it slow your roll

hold on to the words  
don't you cry no more  
for you remain in control  
baby let go
