

The Lung (Nai Palm) [Commentary]

Hiatus Kaiyote

Cool it out by Koolahbah
Cool it out by Koolahbah
overrun from the mouth
Stone

A flare cold undercoat bare
An apple over head
Swift courage shoot it down
Stone

A flare cold undercoat bare
An apple over head
Swift courage shoot it down
Stone

A flare cold undercoat bare
An apple over head
Swift courage shoot it down

Fill the lung that loves the phosphorescent
absorbent time spent on few
and all of you

I'll offer myrrh and murder the preferred method of doubt that sways about heavy and unsound

I offer this smoke from you
Overrun from the mouth
You

The truth overrun from the mouth
Stone

A flare cold undecaot bare
An apple over head
Swift courage shoot it down
Stone

A flare cold undecaot bare
An apple over head
Swift courage shoot it down
Stone

A flare cold undecaot bare
An apple over head
Swift courage shoot it down
Stone

A flare cold undecaot bare
An apple over head
Swift courage shoot it down
Cool it out Koolabah
