

# Watch the Wind Blow By

Tim McGraw

Creek goes rippling by  
I've been barefooting all day with my baby  
Brown leaves have started falling  
Leading the way I like it best just like this  
Doing nothing all the way  
So let's lay down in the tall grass  
Dreaming away And all I wanna do is let it be and be with you, and watch the wind blow by  
And all I wanna see is you and me go on forever, like the clear blue sky  
Slowly, there's only, you and I  
And all I want to do is watch the wind blow by  
Girl, you know you told me not so long ago  
To let it come, then let it pass  
And all your troubles and your sorrows  
They won't last So let me kiss you now, little darlin'  
Beneath this autumn moon  
Cold winds, another season  
Will be here soon  
And all I wanna do is let it be and be with you, and watch the wind blow by  
And all I wanna see is you and me go on forever, like the clear blue sky  
Slowly, there's only, you and I  
And all I want to do is watch the wind blow by, yeah All I wanna do is watch the wind blow by  
All I wanna do is watch the wind blow by
