## Khalil

Never know what we might find  
Is why we're looking  
Lately I'm always on my own  
Cause thats just how it's been  
You will find a place in the heart  
Oh, nobody wants to let me in  
Right up again  
But so proudly to know where 've been, tonight  
But you don't know why, bet it's never gets to you  
Radical in my first mind  
I think about what i shouldn't do, shouldn't do  
So don't waste no time  
I never said this was it no  
Can't run from my self, never thought I need help  
Baby what I feel, what I feel  
Oooh  
I wish it was simple  
Oh no, simple  
I wish it was simple, simple, noNowhere for me to hide  
No one that understood what I feel inside  
To call on my pride I guess it's why  
Never made up my mind  
You will find a place in the heart, ooh  
But the way I felt I held it in never again  
To proudly to now where I've been tonight  
You don't know why, bet it never gets to you  
I would rather go in my first mind  
To think about what I shouldn't do  
So don't waste no time  
I never said this was it no  
Can't run from my self,  
Never thought i need help  
Baby paratu, paratu downI wish this was simple, ooh no, simple  
I wish this was simple ooh simple no  
I wish it was simple, ooh, simple  
I wish it was simple, simple oooh
