

# Messenger

## Tesseract

Your smile's giving me  
All that you know  
I'm your design  
Voices explode in the dark  
Don't shoot the messenger  
It's not our fault  
Your words weighting me down  
Smother me  
I'm your design  
Do you know  
I'd take the empty road?  
But it's too dangerous to explore  
Is your world  
Much safer than before  
Because I don't feel whole?  
Destroy entire worlds  
Destroy entire worlds  
Enter into the sound  
I'll behave for you  
Casting fear into doubt  
I was made for you  
Apathetic, Interaction  
Another distraction  
A Lack of compassion  
For the weak you don't see  
Hopelessly I  
Can you see the flood?  
Can you feel the urgency?  
Can you see the sunset  
behind the willow tree?  
Apathetic, Interaction  
Another distraction  
A Lack of compassion  
For the weak you don't see
