

# Whale

## Yellow Ostrich

Whale, swim with me whale  
We will go far into the sea  
You will take me onto your back  
Never look back  
Never look back Whale, sing to me whale  
Sing me a song  
Tell me that things will never go wrong  
Hide me away  
Don't let them stay  
Don't let them stay Whale, come with me whale  
We will go far into the blue  
I will take you, listen to me  
Then you will see  
Then you will see  
Whale, don't worry whale  
Just do as you please  
I will accept if you'd rather leave  
Open my heart if you open your heart  
Open your heart Oh oh oh oh oh oh oh I've been swimming for a thousand years  
And i've seen more than you can realize  
I accept that you will never understand  
So I will gladly take your hand Whale, come with me whale  
We will go far into the sea  
You will take me onto your back  
Never look back  
Never look back  
Never look back  
Never look back  
Whale, come with me whale  
We will go far into the blue  
I will take you, listen to me  
Then you will see  
Then you will see Whale, don't worry whale  
Just do as you please  
I will accept if you'd rather leave  
Open my heart if you open your heart  
Open your heart
