

# Trust Him

## Fantasia

Lately I have been myself  
'Cause I met the man of my dreams  
See, his words are perfection  
He says all the right things I look forward to his kisses  
Every time that I open my eyes  
It's such a wonderful present  
It's like a beautiful surprise See, I don't know what it is but I trust him  
(Trust him)  
With all of my love, with all of my love And I all really wanna do is touch him  
(Touch him)  
If it isn't too much if it isn't too much  
See I just wanna be around you, dear  
365 days a year  
I wanna share my whole world with you  
Baby, I'm so glad you're here I get mad when I think about it  
For pourin' out all of my soul  
That I wasted on them other fellas  
Should've met a long time ago See, I don't know what it is but I trust him  
(Trust him)  
With all of my love, with all of my love And I all really wanna do is touch him  
(Touch him)  
If it isn't too much if it isn't too much I know it's kind of scary of the both of us  
I make it just another 'cause I'm so in love  
It's true and baby, you don't have to worry  
I can spend the rest of my life just getting to know you, yeah  
See, I don't know what it is but I trust him  
(Trust him)  
With all of my love, with all of my love And I all really wanna do is touch him  
(Touch him)  
If it isn't too much if it isn't too much See, I don't know what it is but I trust him  
(Trust him)  
With all of my love, with all of my love And I all really wanna do is touch him  
(Touch him)  
If it isn't too much if it isn't too much
