

Glitch (feat. Tinashe)

Buddy

BUDDY FEAT. TINASHE - GLITCH Oh, oh, shit, system got a glitch, bitch (Oh, shit)

Money comin' in, it got an itch, bitch (Yeah)

Everyday you know I'm gettin' rich, bitch (Rich, money)

Niggas hatin', I don't give a shit, bitch

Guilty conscience, I ain't innocent, yeah (Yeah)

Tryna make a nigga seize and desist (Ayy)

I command your bitch, I suran the whip (Ah)

I demand some chips, I'm bringin' the clips

My back in, flip, I hang 'round some crips (Ssh)

Some bloods, pimps, some thugs,

Oh, yeah, that's right

Oh, yeah, that's right, oh, yeah, that's right

You goddamn right

Oh, yeah, that's right, oh, yeah, that's right

We don't play nice

Oh, yeah, that's right, oh, yeah, that's right

Just rate my price

Oh, yeah, that's right, oh, yeah, that's-

Money bags, cash cars, clothes

Hunnid racks, stack tall, woah

Money bags, cash cars, clothes

Hunnid racks, stack tall, woah

Yeah, out late night with some move (Move)

We stay breakin' all the rules (Rules)

Me and three bitches in the nude (Nude)

I'm the realest nigga in the room (Room)

Another twenty-K came through (Yes)

I'm runnin' through, but not actin' foolish

Nothin' to prove, got somethin' to lose

So, buckle your dues, to pay for my doom (Ooh)

From the westside it's true (True)

In a designer suit (Suit)

Watch who you talkin' to (Who?)

Out of my mind, I'm glitchin'

Probably 'cause I been sippin', smokin', trippin'

All of these bitches dancin' on top of my dickies

Countin' up hundreds and fifties

It's gettin' wicked, I'm 'bout to black in a minute

I'm gone Oh, yeah, that's right

Oh, yeah, that's right, oh, yeah, that's right

You goddamn right

Oh, yeah, that's right, oh, yeah, that's right

We don't play nice
Oh, yeah, that's right, oh, yeah, that's right
Just rate my price
Oh, yeah, that's right, oh, yeah, that's-
Money bags, cash cars, clothes
Hunnid racks, stack tall, woah
Money bags, cash cars, clothes
Hunnid racks, stack tall, woahOh, yeah that's right
Oh, yeah that's right
Oh, yeah that's right
Oh, yeah that's right
