Blue

[Gemini](#)

Cause you're lost in front of me
It's true, I'm losing you
Cause you're lost in front of me
It's true, I'm losing youAnd you know it's alright,
When you're gonna bring down
Take everything and live for the moment,
It's only gonna bring you down tonightWhen your locked up in my view,
It's true I love you
When your locked up in my blue,
It's true I love you
And you know it's alright,
When you're gonna bring down,
Take everything and live for the moment
It's only gonna bring you down
Bring you down
Bring you downWhen I'm lost I'll come to you,
So blue, I'm feeling you,
When I'm lost I'll come to you,
I'm blue, I feel youAnd you know it's alright,
When you're gonna bring down,
Take everything and live for the moment
It's only gonna bring you down
Bring you down
Bring you down
And you know it's alright,
When you're gonna bring down
Take everything and live for the moment,
It's only gonna bring you down tonight
