

sad

LANY

You cut your hair
You dried your tears
You look happier than ever
And I hear he's nice
And treats you well
I wish that I had loved you better
'Cause it feels like I'll never get over you
And I don't know what I'm supposed to do
So, I stay out late with all your friends
And I get so drunk that I pretend
That I don't miss all the good things that we had
'Cause I heard you found somebody else
And it breaks my heart and hurts like hell
'Cause I know that I will never get you back
Wish that I could make you sad
Wish that I could make you sad
I kiss someone in front of you
Just to try to make you jealous
But you don't care
You don't cry
And there's nothing I can do to change your mind
So, I stay out late with all your friends
And I get so drunk that I pretend
That I don't miss all the good things that we had
'Cause I heard you found somebody else
And it breaks my heart and hurts like hell
'Cause I know that I will never get you back
Wish that I could make you sad
Wish that I could make you sad
And I can't believe
What I'm goin' through
I hate myself for losing you
So, I stay out late with all your friends
And I get so drunk that I pretend
That I don't miss all the good things that we had
'Cause I heard you found somebody else
And it breaks my heart and hurts like hell
'Cause I know that I will never get you back
Wish that I could make you sad
Wish that I could make you sad
Wish that I could make you
Wish that I could make you sad
