

# On, On, On, On...

## Tom Tom Club

I'm living proof, I love you  
I know the truth, so do you On and on we will come  
There are scores of us  
On and on, here we come  
There are more of us Come to my room, I need you  
You're living proof, make your move On and on we will come  
There are scores of us  
On and on, here we come  
There are more of us You are the youth, we're with you  
We're living proof what we can do  
On and on we will come  
There are scores of us  
On and on we will come  
There are scores of us  
On and on, here we come  
There are more of us On and on ...
