## **Bright**

## **Echosmith**

I think the universe is on my side Heaven and Earth have finally aligned Days are good and that's they way it should be You sprinkle stardust on my pillow case It's like a moon beam brushed across my face Nights are good and that's the way it should be You make me sing 'oohh la la laa' You make a girl go 'oohh oohh' I'm in love, loveDid you see that shooting star tonight? Were you dazzled by the same constellation? Did you and Jupiter conspire to get me? I think you and the Moon and Neptune got it right 'Cause now I'm shining bright, so bright Bright, so bright And I see colors in a different way You make what doesn't matter fade to grey Life is good and that's the way it should be You make me sing 'ooohh la la laa' You make a girl go 'ooohh oohh' I'm in love, loveDid you see that shooting star tonight? Were you dazzled by the same constellation? Did you and Jupiter conspire to get me? I think you and the Moon and Neptune got it right 'Cause now I'm shining bright so bright And I get lost in your eyesDid you see that shooting star tonight? Were you dazzled by the same constellation? Did you and Jupiter conspire to get me? I think you and the Moon and Neptune got it right 'Cause now I'm shining bright So bright **Bright** So bright Bright So Bright And I get lost in your eyes Tonight
