Walking Song

Arlo Guthrie

Oh, last night I sat by your side Oh, I was feelin' so lonely Would have given up my pride All night I was so lonelyThen you took to the streets You don't have much to say But I listened to your feet As they walked away Bye bye bye Now walking's the only thing I know Oh, we do well together I ain't thinkin' 'bout where we go Lace up your boots of leather Then we take to the streets We don't have much to say But I listen to our feet As we walk away Bye byeI wasn't lookin' for love I'm a little sorry you're gore But until we have something to say I'll just keep walking along Bye byeAsk me if I need you now Oh no, I'm feeling great If you haunt me in my dreams Ah, there is one escape I'll just take to the streets I won't have much to say But I'll be listening to my feet As they walk away Bye bye
