

# I'll Be Around (Club Mix) [feat. Timbaland]

## Cee-Lo

Oh! Cee-Lo... you ready to rock wit Timbo?  
Oh! Let's go boy! ATL, talk to em Lo...How could I possibly, be inconspicuous  
When my flow is fuckin ridiculous?  
That's quite an accent, see I'm from the south  
Where some of the most beautiful things come out my mouth  
And I'm on stage just as soon as I come out the house  
So I might as well give them somethin to talk about  
I bust a rap to make a blind man believe in the boogeyAnd if you came here to move the Cee  
then the boogey onWhen you want me to come (Holla)  
When you want me to come (Call me!)  
When you want me to come (I'll be around)  
(When you want me to come, yeah, woo! Holla)  
When you want me to come (Holla)  
When you want me to come (Call me!)  
When you want me to come (I'll be around)Here comes Timbaland, I'm also from the south  
I like them girls with big butts, and golds in they mouth  
I come from the back road, and a dirty house  
If you leave the door open, moms'll cuss ya out  
I got a big dog in the front yardBest buh-lieve that bitch bite hard  
I gotta grand daddy who think he Joe Clark  
And that's how we do it round these parts, Oh!When you want me to come (Holla)  
When you want me to come (Call me!)  
When you want me to come (I'll be around)  
(When you want me to come, yeah, woo! Holla)  
When you want me to come (Holla)  
When you want me to come (Call me!)  
When you want me to come (I'll be around)  
You see, I do what they won't do and can't do  
But gon wish they did when I'm doneAnd with a smile on my face, give the trophy for second  
place rite after I won  
Shake his hand, firm like a man but talk to him like a son  
And this way I can still be a little somethin to everyone  
And with that elegance, I rock climb to reach hints from God of relevance  
Poise, position, and the plush of a revalance  
And I'm outstandin, outpsoken, which is the unequivocal evidence  
It is then instant vintage as it has been, ever since, ah!  
When you want me to come (Holla)  
When you want me to come (Call me!)  
When you want me to come (I'll be around)  
(When you want me to come, yeah, woo! Holla)  
When you want me to come (Holla)  
When you want me to come (Call me!)

When you want me to come (I'll be around)  
When you want me to come (Holla)  
When you want me to come (Call me!)  
When you want me to come (I'll be around)  
(When you want me to come, yeah, woo! Holla)  
When you want me to come (Holla)  
When you want me to come (Call me!)  
When you want me to come (I'll be around)
