

What's That Right There

Kelis

What's that right there?
What's that right there?
What's this right here?
Yea
What's this right here?
Yea, what's that right there? Oh, this ain't nothin' but a lil' somethin' that I got
Lil' somethin' that I got, lil' somethin' that I got This just might be the flavor you crave nightly
I'll give it to you nicely, oh
So go ahead and try me, them girlies wanna fight me
But you just wanna bite me, oh When you get some of what I got
It's gonna knock you right off of your socks
This right here is hot, is hot
I put the shimmy on your cocoa pop
He likes it raw, I likes it on top
I got somethin' for that lollipop
And your heart's gonna stop when I drop down What's that right there?
What's that right there?
What's this right here?
Yea
What's this right here?
Yea, what's that right there? Oh, this ain't nothin' but a lil' somethin' that I got
Lil' somethin' that I got, lil' somethin' that I got What's that right there?
