

# Nausea

## At the Gates

Release me from your world of lies  
I cannot bear this pain  
Degenerate machinery  
The monsters we create  
The monsters we create Nausea, oh sweet nausea Genetic barcode hell  
Mental genocide  
Repulsive human shells  
Choke on the fruits of life  
Choke on the fruits of life  
Nausea, oh sweet nausea Cold stare, starving eyes  
Blinded, tired lives  
Release me from this pain  
Unknown to man Nausea, oh sweet nausea  
Cold stare, starving eyes  
Blinded, tired lives  
Release me from this pain  
Unknown to man  
Unknown to man
