

# Garden

## Lil Skies

Now they salty  
See me winnin', now they wanna stop me  
Came from nothin', now we fuckin' flossin'  
I feel great, these people think I'm awesome  
Lil baby, why you fraudin'  
Plant my seed, watch me grow a garden  
Save your breath, I don't do the arguin'  
We done came up, we worked the hardest  
Why you salty?  
See me winnin', now they wanna stop me  
Came from nothin', now we fuckin' flossin'  
I feel great, these people think I'm awesome  
Run away, from all the pain  
I tried so hard to change my ways, think I'm insane  
She rollin' up my Mary Jane, she in love with me  
And I'm rollin' off an Addy pill, think this controllin' me  
And they said I wouldn't be shit, but I'm here  
And you thought that I was up now, just wait 'til next year  
I got people sendin' threats, I can never show no fear  
Smoke 'em like a cigarette, see that smoke when I appear  
Now they salty  
See me winnin', now they wanna stop me  
Came from nothin', now we fuckin' flossin'  
I feel great, these people think I'm awesome  
Lil baby, why you fraudin'  
Plant my seed, watch me grow a garden  
Save your breath, I don't do the arguin'  
We done came up, we worked the hardest  
Why you salty?  
See me winnin', now they wanna stop me  
Came from nothin', now we fuckin' flossin'  
I feel great, these people think I'm awesome  
I put my back against the wall and just scream, "Fuck 'em all"  
Now that I'm up they like to call and try to get involved  
I look my shorty in the eyes like, "I can't do you wrong"  
You ride for me, I ride for you, that's how we get along  
I see it in your face, yeah, got no time for the basic  
I wish they could see it how I see it, but I'm famous  
You can have my old swag 'cause ever day I change it  
I can't take no L's, I'm destined for greatness  
Now they salty  
See me winnin', now they wanna stop me  
Came from nothin', now we fuckin' flossin'  
I feel great, these people think I'm awesome

Lil baby, why you fraudin'  
Plant my seed, watch me grow a garden  
Save your breath, I don't do the arguin'  
We done came up, we worked the hardest  
Why you salty?  
See me winnin', now they wanna stop me  
Came from nothin', now we fuckin' flossin'  
I feel great, these people think I'm awesome
