

# Seal the Deal

## Volbeat

Sold my soul, and signed my name in blood  
Stole it back, now praying in the dark  
Fooled the devil, begging for a fight  
Count the dollars, make your bet tonight  
Feel strong like an oiled machine  
All the anger boils within  
Move it, give in, the high rollers are in  
I get groovy, now turn it on and fight  
Seal the deal, and let's boogie for a while  
Let's get groovy, burning out with rage  
Seal the deal, and let's do it all again  
Knuckles crushed  
My eyes no longer see  
I paid the price, and fed the family  
Feel strong like an oiled machine  
All the anger boils within  
Move it, give in, the high rollers are in  
I get groovy, now turn it on and fight  
Seal the deal, and let's boogie for a while  
Let's get groovy, burning out with rage  
Seal the deal, and let's do it all again  
Sing hallelujah, the devil in disguise  
There'll be no pearly gates  
So stand up for yourself this time  
Fight for honor, let no one drag you down no more  
Be your own man  
With blood, sweat, tears you fall  
I get groovy, now turn it on and fight  
Seal the deal, and let's boogie for a while  
Let's get groovy, burning out with rage  
Seal the deal, and let's do it all again  
I get groovy, now turn it on and fight  
Seal the deal, and let's boogie for a while  
Let's get groovy, burning out with rage  
Seal the deal, and let's do it all again
