

Demiurge

Meshuggah

Writhing and embraced,
retribution, soul eclipse turns solid,
energized, sucking vomit - acting like its honey;
deprived of I,
Falling while thrusting squares through circles,
serving one single new dimension.
Terror rising, agnostics nemesis, a prophet of extinction. I scorch the skies before your very
eyes,
my deliverance - enslavement labelled: love.
Just trust this nemesis to sign and seal extinction.
