

# Mother (feat. Anggun)

## Enigma

Don't be shy  
I know you need a place to hide.  
Mon is here and that's all right  
I'm on your side, on your side. It's time you cross the river to glory land  
Any dream helps survive  
When you're there, you will see  
That's the place you long to be.  
Trust me, this ride is free. Open up the windows of your mind,  
Don't you see it is time  
To leave your fears behind?  
Come, follow me  
Escape through word  
of desire and dreams  
... desire and dreams
