

# Level Up (Sunship Mix)

## Sway

We level up, up, up  
We level up, up, up  
SmashYeah, we level up!  
I'm gonna climb up the levels, go harder  
Lights flash every time we go past  
I'll never lose the game, I'm gonna last  
So let's start, we level up! All over the radio and back up in raves again  
We got the crowd on a wave like it's a stadium  
Call me the weather man it's about to be a great weekend  
I'm on the cloud, let's make it rain again  
Yeah, we level up!  
Nice but naughty, shirts and dresses looking saucy  
Living in our minuses, cause life begins at 40, level up.  
Call me Bond, James Bond  
How I maintain, I tell them winner stays on  
My brain racing like I'm trying to win the gold for Britain  
On a one track mind, let's go the distance  
We're only stopping when we pose for pictures  
And now we move so wavy, we get motion sickness. Yeah, we level up!  
I'm gonna climb up the levels, go harder  
Lights flash every time we go past  
I'll never lose the game, I'm gonna last  
So let's start, we level up!  
Feeling like I just won the lotto  
Pop a bottle and make them say Ahhh like I'm your dentist  
Keys to the suite, you call me Alan Sugar  
Yeah we're firing tonight, and I might need an apprentice  
Reunion, old school and uni friends  
It's your excuse to act like hooligans  
Bend and break the rules again  
Parties just getting started at 2am  
Waking up at noon next to...  
who are you again? Looking in the mirror and I feel like I'm famous  
I got that glimmer in my eye like I ain't afraid of danger  
Today could be the day that everything changes  
I'm trying to move up to the hills where idols become neighbours  
One moment, your whole world rearranges  
You're feeling like you graduated Oxford or Cambridge  
Forever roll the dice and have it looking like Vegas  
You win some you lose some, but only winners take risks I start getting calls I've been waiting  
on for ages  
Phone starts pumping and I'm gossiping with strangers

In and out a lot and I'm out getting wasted  
All of these flashing lights popping up in places  
Always forgetting names, don't even remember faces  
Aha... What's your name again? Name again?  
My house, la la la lights out  
Wake up in the tee saying touch me i'm famous Hey stranger, where you've been? Long time no  
see  
Time to level up  
I'm in the game, play to win  
Another round on me. Yeah, we level up!  
I'm gonna climb up the levels, go harder  
Lights flash every time we go past  
I'll never lose the game, I'm gonna last  
So let's start, we level up!
