

# Wait and See

## Iration

I know we've always been a long  
Shot, I'm down to roll those dice, I'll travel down that long hard  
Road girl,  
Just to make you know  
That I tried  
We might not make it  
In the end but,  
We'll sure enjoy  
That ride  
At least we'll have  
This song to remember,  
The way we  
Felt that night  
I'm all in til  
You make it with me  
I'll read it  
Written on that old marquee  
Take  
A chance just wait and you'll  
See  
Oooh Wait and See  
I know  
We've always been a long shot  
I'm  
Down to run all night  
Travel  
Through the rain and cold  
Girl  
Just to make you feel  
Alright  
We might not make it in  
The end but  
We'll sure enjoy  
That ride  
At least you'll have  
This song to remember  
To remember  
Me by Chorus
