## Murphy Lee

You make a brotha wanna faint, damn  
Or put you on a plate, sock you up wit a mu'fuckin'cuit  
Man, it was a house party ayyo I probably sound corny  
I got oatmeal hormones ma, I'm instantly horny  
I mean, the way you carry yourself  
I mean, if I wasn't you I'd probably marry myself  
I'm in ya eyes, did I say ya ass? I mean ya eyes  
Face bangin' haven't even got to ya thighs I mean the walk-to-walk is like the matrix  
I could sit a drink on that ass if I had nowhere to place it  
Face it, how could anybody dislike you?  
These others girl are cool, but not quite like you  
I mean, ayyo I focus on my pass a lot  
But relationships like twista, gotta hold ya spot  
I mean, and you know that my time is skimpy  
If I'm the only in yo heart then it's probably empty, girl  
Ohh Murphy, Murphy Lee  
Ohh things ain't what they used to be, no  
But ever since you hit the road  
Yes I'm spent in this relationship  
And I'm so in love that it makes me see Ohh Murphy, Murphy Lee  
Ohh things ain't what they used to be, no  
I can't spend this time alone  
I tell ya without you  
You'd make me stronger You too fly to be askin' a guy why  
All my life love kept on, passin' me by  
You can't change a woman by diamond chainin' her  
Change don't make change, mathematically train her  
It's a two way thing  
Now Scott tell a Motorola by high chairs and baby strollers  
I be the sun, you be the moon let the kids be the star  
I know who you is, you know who I are  
When the do' close, you know I ain't goin' that far  
You got keys to Erry house, keys to Erry car  
And hell yeah, I need love too like LL  
I must be on Neptune, 'cuz love is for real but still  
You not from much and, so girl it ain't no rushin'  
And respect how there be more talkin' than touchin'  
Seein' you no frontin' is way better than nuttin'  
And it means summin to me, if you want me speak on it, girl Ohh Murphy, Murphy Lee  
Ohh things ain't what they used to be, no  
But ever since you hit the road  
Yes I'm spent in this relationship

And I'm so in love that it makes me see Ohh Murphy, Murphy Lee  
Ohh things ain't what they used to be, no  
I can't spend this time alone  
I tell ya without you  
You'd make me stronger You a housewife  
The type of girl that always know what time may be it's  
The tick-tock type, keep her own shoes tied, push her own ride  
Quick to give me money when my bills too high  
I need top-notch sex  
Wash dishes, and sweep, mop topless  
Never give me stress, love when the God bless  
Makin' love to the mime boo could be a mental mess And you don't like me like shy but I'm a  
lover mon  
Other the other hond, can't stand you wit another mon  
I went from Timberland's, tuxedo's, camabons  
I got a fast, fast girl I don't wanna run  
I can't help it I ain't ready  
But see havin' a steady girl is a different world like Freddy  
Love is deadly, in the shower singin' melodies  
I'll make it up if ya let me girl Ohh Murphy, Murphy Lee  
Ohh things ain't what they used to be, no  
But ever since you hit the road  
Yes I'm spent in this relationship  
And I'm so in love that it makes me see Ohh Murphy, Murphy Lee  
Ohh things ain't what they used to be, no  
I can't spend this time alone  
I tell ya without you  
You'd make me stronger
