

Dangerous Dave

Spirogyra

He's got a gun he really thinks he's something
He don't have to run he got a sub machine gun
He told his Mum he's gonna join the army
Look at your son he's gonna be a man Ma
He got a uniform
Over the seas he's gonna fight for freedom
Waving a flag he's gonna be a hero
Never afraid, he's gonna conquer evil
Do as he's told and make a perfect soldier
He got a uniform
Watch yourself soldier boy you missed the point son
Discipline soldier boy, you disappoint me
You just do not, you just do not see You're needing a skirt to hide your lack of brain boy
Don't it just hurt to have to think yourself boy
A clear right and wrong, there'll be no complications
No need to think or write those disertations
He got a uniform Watch yourself soldier boy you missed the point son
Discipline soldier boy, you disappoint me
You just do not, you just do not see
Caught in a crumbling castle, who are we
Torn by salvations dragon, hope lives on
And so down into a time
where Liberty and Freedom have no significance
in the current economic crisis
