

Saved (feat. Lennon Stella)

Nashville Cast

I'm out here, alone in treading water
The clear air, tells me there's a storm coming
I'm not afraid of the dark cloud, gonna wait it out
Got me racing my heart now and I'm fading out

I'm waiting to be Saved
By a tidal wave
Take me away t-t-take me away
Saved

By a tidal wave
Take me away t-t-take me away
I'm caught up in the current
Knowing that I'm certain to be
Saved

Knowing that I'm certain to be
Saved

Knowing that I'm certain
I'm out here, like a message in a bottle
Can't breathe, I'm sinking down the rock bottom
I'm not afraid of the dark cloud, gonna wait it out
Got me racing my heart now and I'm fading out

I'm waiting to be Saved
By a tidal wave
Take me away t-t-take me away
Saved

By a tidal wave
Take me away t-t-take me away
I'm caught up in the current
Knowing that I'm certain to be
Saved

Knowing that I'm certain to be
Saved

Knowing that I'm certain
I'm losing hope

When will you find me
When will you show up
When will you show up
When will you show

I need to know that I'll be Saved
By a tidal wave
Take me away t-t-take me away
Saved

By a tidal wave

Take me away t-t-take me away
I'm caught up in the current
Knowing that I'm certain to be
Saved
Knowing that I'm certain to be
Saved
Knowing that I'm certain to be
Saved
