## I Do

## Felix Jaehn

Drowning in an ocean of you Forty foot waves Whispering sweet nothings in your bed Could stay here for daysGave you all of me I'll never leave Ways that we could stay between the sheets Oh but they can't see what you do to me Doesn't really matter what they sayAnd they think you don't give enough But I do, I do They say I don't really need your love But I do, I do... I DO Open ticket to nowhere is how we spent our days Chasing that silver lining hiding far awayI never wanted to changeGave you all of me I'll never leave Ways that we could stay between the sheets Oh but they can't see what you do to me Doesn't really matter what they say And they think you don't give enough But I do, I do They say I don't really need your love But I do, I do... I DO And they think you don't give enough But I do, I do They say I don't really need your love But I do, I do... I DO End Song Discussions is protected by U.S. Patent 9401941.
