

Honey Slider

Houndmouth

Why would you just stand there
 Watch me leave
You always watch me leave
You swore you'd stick around
 Have a dance with me
You never danced with me
 Won't you please be
 My little honey slider
 Leave you out to dry
 Leave you out on a wire
 Why would you get up
 And walk out on me
You always walk on me
You swore you'd stick around
And have a drink with me
 You never drink on me
 Won't you please be
 My little honey slider
 Leave you out to dry
 Leave you out on a wire
'Cause at the very least
 I'm gonna find you
 My sweet treat
 Won't you please be
 My little honey slider
 Leave you out to dry
 Leave you out on a wire
