

Incognito

Enigma

Like a shadow on the wall.
You were coming, you best go.
Not protected by the law,
But still... incognito. You're capturing my soul,
They don't want it, you best go.
Who you are, nobody knows,
Can't get behind incognito,
Incognito. Like a shadow on the wall,
Free access through around the world.
Who you are, nobody knows,
Eyes without face incognito. Sade, dit moi.

(Reversed)

Like a shadow on the wall,
Free access through around the world. Sade, donne moi. (Reversed)

Like a shadow on the wall,
Free access through around the world. (Reversed)

Like a shadow on the wall,
Free access through around the world. Like a shadow on the wall,
You were coming, you best go.

Not protected by the law,
But still... incognito. Like a shadow on the wall,
Free access through around the world.

Who you are, nobody knows,
Eyes without face incognito.

Incognito. (Incognito.)

(Incognito.)

(Incognito.) Incognito.

Incognito.

Incognito.

Incognito. Incognito.

Incognito.

Incognito.

Incognito. Incognito.

Incognito.
