

Primary Colours

MAGIC!

Your fuchsia's confusion
Your teal is unclear
Your aqua's a hard one
To read, yes I feel You're painting the future So far from the past Can we get back to basics
To make this thing last Back to the primary colors
So we can blend together again Back to the primary colors
A little blue, yellow and red Your violet is silent
Your beige is a maze
Your canary is scary
So much I can't take
Creative evolution
You're moving too fast Can we count a little one, two, three
To make this thing last Back to the primary colors
So we can blend together again Back to the primary colors
A little blue, yellow and red Back to the primary colors
So we can blend together again Back to the primary colors
A little blue, yellow and red Red, red, red, red, red, red, red
Blue, yellow and red Red, red, red, red, red, red, red
Blue, yellow and red
Red, red, red, red, red, red, red
Blue, yellow and red Red, red, red, red, red, red, red Back to the primary colors Back to the
primary colors The one's that confuse you
Enough that I choose you Before I lose you
Please come back Back to the primary colors
So we can blend together again Back to the primary colors
A little blue, yellow and red Back to the primary colors
So we can blend Back to the primary colors
A little blue, yellow and red END
