

Rocketman (feat. American Authors)

MAGIC GIANT

Didn't wanna wake up this late, then I woke up
In a daze when I looked up
You were going away, I was choked up
Was I a little too late?
Light blinds when it hits your face
in the morning
Before it breaks I look outside
The streets have changed, where's our city?
Was I a little too late?
I was a rocket man for you
But what you needed was a diver, baby
Was I a little too late?
I was a rocket man for you
But what you needed was a diver, baby
Was I a little too late?
You know I never wanna leave you
And I don't wanna leave you now
But I can't stop
Just as long as I'm breathing
You know I never wanna leave you
And I don't wanna leave you now
But I can't stop
Just as long as I'm breathing
Thunder and I lost my mind in a fever
Something I can't find in a mirror
Squint my eyes but I can't see her
Was I a little too blind?
My heart breaks thought I saw your face in a movie
Like a script you wrote looking through me
There's a missing scene in our story
Was I a little too high?
I was a rocket man for you
But what you needed was a diver, baby
Was I a little too late?
I was a rocket man for you
But what you needed was a diver, baby
Was I a little too late?
You know I never wanna leave you
And I don't wanna leave you now
But I can't stop
Just as long as I'm breathing
You know I never wanna leave you
And I don't wanna leave you now
But I can't stop
Just as long as I'm breathing
Was I a little too late?
I was a rocket man for you
What you needed was a diver, baby
Was I a little too late?
I was a rocket man for you
But what you needed was a diver
Deep down in your crazy blue
You know I never wanna leave you

And I don't wanna leave you now
But I can't stop
Just as long as I'm breathing You know I never wanna leave you
And I don't wanna leave you now
But I can't stop
Just as long as I'm breathing
