

Liars (feat. Emma Sameth)

Griffin Stoller

It's not your birthday but you drink every night
Hire neon clouds, cakes and crowds
Leave in a hurry so we think you're alright
Go on, fake about, hit the town Crying out your eyes for a compass
Sweeter sixteens never help when you're loveless
Thinking it like a queen, you're nothing but a duchess
You're loveless, you're loveless, yeah
Puffing out your chest like a tough kid
Putting on a show, bravo, what a puppet
You got a deep, dark pit in your stomach
Like I do
So maybe I'm a liar too
So come and meet me on the bright side
We could share our pretty little white lies, white lies
Dodging problems, tryna play it cool
We can drown 'em over white wine
You keep saying that we're just fine, just fine Baby, you know I'm a liar too
So come and meet me on the bright side
We could share our pretty little white lies, white lies
Dodging problems, tryna play it cool
We can drown 'em over white wine
You keep saying that we're just fine, just fine Baby you know I'm a liar too Baby I'm a liar You
draw attention to the sun in your sky
Got that cartoon love, that bubblegum, yeah
But then it crumbles when i look in your eyes
You were so damn fun, now you're oh so numb
So keep crying out your eyes for a compass
Sweeter sixteens never help when you're loveless
Thinking it like a queen, you're nothing but a duchess
You're loveless, you're loveless, yeah
Puffing out your chest like a tough kid, yeah
Tell me, why're you always running, yeah
Always running from something
Like I do So maybe I'm a liar too
So come and meet me on the bright side
We could share our pretty little white lies, white lies
Dodging problems, tryna play it cool
We can drown 'em over white wine
You keep saying that we're just fine, just fine Baby, you know I'm a liar too
So come and meet me on the bright side
We could share our pretty little white lies, white lies
Dodging problems, tryna play it cool

We can drown 'em over white wine
You keep saying that we're just fine, just fine
Baby you know I'm a liar too
Baby I'm a liar
