

Get What You Need

Jet

Call you on the telephone
(She's not there)
Ya always leavin' me alone
(She don't care)I'm through with messin' around
(She's not there)
If you've got a lady friend I'm taking her down, let's go
(She don't care)So come on
Yeah come on
Come onYou're gonna get what you need
(You're gonna get what you need)
You're gonna get what you need
(You're gonna get what you need)
Come on and get what you need
(You're gonna get what you need)
Alright now get what you need
(You're gonna get what you need)Now I'm in a rockin' band
(She's not there)
No-one has to hold my hand
Word starts getting around
(She's not there)
If you've got a lady friend I'll take her to town yeah!So come on
Yeah, come on
Come onYou're gonna get what you need
(You're gonna get what you need)
You're gonna get what you need
(You're gonna get what you need)
Come on and get what you need
(You're gonna get what you need)
Alright now get what you need
(You're gonna get what you need)You're gonna get what you need
(You're gonna get what you need)
You're gonna get what you need
(You're gonna get what you need)Come on and get what you need
(You're gonna get what you need)
You're gonna get what you need
(You're gonna get what you need)
