

Pendulum

Diecast

You never understood any given day could be your final one
No room for regret, don't ever forget your being followed by
The swinging Pendulum, watch as
it grows so close
Fall to the Swinging Pendulum, watch as it grows so close until you are gone
We're chased all
through time not knowing one day from the next
Numbers coming up, when will you cut the golden thread
Maybe it's not my time, maybe it's not your time
But we should live our lives in case there's no tomorrow
I won't be another statistic I'll be ready for the coming of the
Swinging Pendulum, watch as it grows so close
Fall to the swinging Pendulum, watch as it grows so close until you are gone
Days turn into
months, turn into years realize that we cannot live forever
Days turn into months, turn into years realize that we cannot live FOREVER!
Days turn into months, turn into years realize that we cannot live forever
Days turn into months, turn into years realize that we cannot live forever
You never understood
any given day could be your final one
No room for regret, don't ever forget you're being followed by
The Swinging pendulum, watch
as it grows so close
Fall to the swinging pendulum, watch as it grows so close until you are gone
Maybe it's not my time, maybe it's not your time,
But we should live our lives in case there's no tomorrow
Maybe it's not my time, maybe it's not your time,
But we should live our lives in case there's no tomorrow
