

# Calling On You

Stryper

Inside of me there is a lonely place  
Sometimes I just don't know it's there  
But when I'm all alone  
That's when I have to face...  
The part of me that needs someone  
To be by my side that's when I call on...  
You, You make my life complete  
You give me all I need  
You help me through and through  
I'm calling on you  
I can't explain just what You do to me  
My love grows stronger everyday  
You give me love, You give me company  
And when I have to face the rain  
You bring sunshine into my life You, You make my life complete  
You give me all I need  
You help me through and through  
I'm calling on you[Solo]  
You, You make my life complete  
You give me all I need  
You help me through and through  
I'm calling on you
