

Closer (feat. Koko LaRoo)

Qulinez

Gimme that gimme that fever
Make it so hard to get lethal
We get to this all night
Right it to the sunrise
I can pick you up if you're down there
Show you got my love show you again
If you have to see I'm a swimwear
Give You all of me give you all of me
Start to fire in the sky
Waiting for the night until it's over
Set the magic in your eyes
Hits me every time when we're closer
So come closer
Come closer
Come closer
Come closer
Ever got fights for something
Oh yeah
Never stop never stop running
Oh
I can do this all night(all night)
We could do this all night
I can pick you up if you're down there
Show you got my love show you again
If you have to see I'm a swimwear
Give You all of me give you all of me
Start to fire in the sky
Waiting for the night until it's over
Set the magic in your eyes
Hits me every time when we're closer
So come closer
Come closer
So come closer
So come closer
Come closer
So come closer
Come closer
Come closer
Come closer
Come closer
