

# Count On Me

## Fool's Garden

You came from out of nowhere  
Where will you go?  
It seems you've always been there  
What do we know?  
You've put your life in our hands  
Will we ever know why  
You're so pure, you just say what you're thinking  
You make everything so deep  
In your smile, in your eyes  
I can see so much of my life  
Let your dreams always lead  
I'll be there for you whenever you need  
Count on me  
When you're weary and troubled  
And when all their rules try to put you down  
Keep your head always high and don't care what they say  
Be yourself and ignore what they're thinking  
The most beautiful souls sometimes bleed  
In your smile, in your eyes  
I can see so much of my life  
Let your dreams always lead  
I'll be there for you whenever you need  
Count on me  
They will shake you  
Try to break you  
But i know that they'll never succeed  
Cause you are strong  
Yes you're so strong  
In your smile, in your eyes  
I can see so much of my life  
Let your dreams always lead  
I'll be there for you whenever you need  
Count on me  
Count on me  
Count on me
