

Indie Film Lovers (feat. Kerri)

Lyss

I never expected you to come around
i didn't know it would be this easy
to turn my frown upside down
but you came in
and you swept me off my feet
when we're together
it feels like a movie scene
like indie film lovers
let's lay under the covers
spend endless time with one another showing music to each other
let's have a parked car convo
smiley faces drawn up on the window let's go from a to z
tell me what you feel for me
we'll color everything
don't forget the in between
i never expected you to come around
i didn't know it would be this easy
to turn my frown upside down
upside down
Like indie film lovers
let's lay under the covers
spend endless time with one another showing music to each other
let's have a parked car convo
smiley faces drawn up on the window we'll color everything
i won't forget the in between
we'll color everything
it's only you and me
i am little more
than a whisper
a cool breeze
In the winter.
