

Tease Me

3T

We can do it nice and slow
It's six o'clock
It's getting dark
And we're all alone
So dim the lights
Lock the door
Baby come on
'Cause I've waited for this moment
For so long I don't want just anybody
Who wants to get it on
I don't think that I can hold my feelings
Back no more
So baby please stop
Oh it's getting hot
Girl you better not
Why you always wanna tease me
I don't wanna waste no time
So bring your body close to mine
We can do it nice and slow
And easy
I don't wanna waste no time
So baby just let it all unwind
Girl, don't tease me
It's lovers time
Relax your mind
Unplug the phone
Come a little closer, baby
Don't be afraid
Let me show you the way to my love
Come on
Because I need somebody
To love me all night long
I don't want just anybody
Who wants to get it on
I don't think that I can hold my feelings
Any more
So baby please stop
Oih it's getting hot
Girl you better not
Why you always wanna tease me
I don't wanna waste no time (Why you wanna tease, don't tease me)
We can do it nice and slow (Why you wanna tease, tease, tease tease)

Girl don't tease me
I don't wanna waste no time
So bring your body close to mine (Tease me)
We can do it nice and slow
And easy
I don't wanna waste no time
So baby just let it all unwind (Tease me)
Girl, don't tease me
Why you wanna tease me
I don't wanna waste no time (Why you wanna tease me, tease me)
Girl don't tease me (Tease me)
I don't wanna waste no time
So bring your body close to mine (Tease me)
We can do it nice and slow
And easy
I don't wanna waste no time
So baby just let it all unwind (Tease me)
Girl, don't tease me (Tease me)
I don't wanna waste no time
Tease me
We can do it nice and slow
