

# The Motion (feat. Ye Ali & Anthony Pavel)

## The Cool Kids

Okay, okay  
One drink, two drinks, then you comin' with me  
If you wanna run away, you should run it with me  
I can keep it on the low, we don't gotta be seen  
And it's better for me 'cause [?]  
Girls be watchin', girls be talkin'  
Girls can't keep their eyes up off us  
So girl don't keep on acting like you're so shy  
And I like it when you throw that back and that thing in motion  
Movin' like a pro, don't need no coachin'  
You never know what you do to you, try (yeah)  
Uh, you got it, I'm tryna catch your body  
And I see you in the party with your friends  
And you try to fit in but you only do it 'cause you really stand out  
You know it, that's why you ain't lookin' for a hand out (ay)  
Instead of tryna make it, put your phone down  
You should use it to call us an Uber  
I got homies, that's your cruiser  
I got trust issues but I'm gettin' better  
I had a girl that loved me but I didn't let her  
I get check, bills, and everything between it  
I hope that we can come to an agreement  
'Cause about to dippin' if you leavin'  
Go get some ice I think it's freezin'  
Ice in the Cola  
Bang like the Congas  
Move left to right and  
Put that thing in motion  
Ice in the Cola  
Bang like the Congas  
Move left to right and  
Put that thing in motion  
In motion  
Left to right, right to left  
In motion  
Bring it here, throw it there  
In motion  
Left to right, right to left  
In motion  
Bring it here, throw it there  
Let you do what you want with it  
On the dancefloor you got the most rhythm

Cookin' up [?], bae you soak in it  
Got the light right from where your post is from  
Get low, hip roll to the beat  
Lookin' back at it, why you focus on me?  
Gettin' information, wanna coast in the sea  
The motion in the ocean, sittin' close on the beach  
I'm coolin', blow my air on my soup  
Don't care where we goin' just keep me in a loop  
Careful, circle, feet first in the water  
Gotta keep it movin', only way to go further  
Now check some, want some, let's go  
Get down, little momma, this a real dare song  
Go and put your party dress on  
Make money, take money 'til them bills paid off  
Ice in the Cola  
Bang like the Congas  
Move left to right and  
Put that thing in motion  
Ice in the Cola  
Bang like the Congas  
Move left to right and  
Put that thing in motion  
In motion  
Left to right, right to left  
In motion  
Bring it here, throw it there  
In motion  
Left to right, right to left  
In motion  
Bring it here, throw it there
