

# A Mother's Christmas Wish

Olivia Newton-John & Jim Brickman

I wish you love  
A life to share  
And when you find  
Someone to care  
I hope that time  
Is kind to you  
And that all your dreams come true  
This is a mother's Christmas wish for you  
I wish you peace  
Of heart and mind  
To use your strength  
But still be kind  
To learn to give  
To learn to lose  
To live with truth in all you do  
This is a mother's Christmas wish for you  
And when you wake on Christmas day  
With children of your own  
I know then you'll see  
What you've been to me  
You are the greatest gift of all  
A child was born  
On Christmas day  
A shining star  
To lead the way  
And Mary's love  
Was pure and true  
And that's the way that I love you  
I pray that love would guide you through  
This is a mother's Christmas wish for you
