

Help Me Out

Maroon 5 & Julia Michaels

I'm getting kind of over this
I need a metamorphosis
Are you awake as me?
If not, do you wanna be? Ooh I need some temporary saving
Ooh I need some, some uncomplicating Help me out
'Cause I don't wanna do this on my own
Help me out, out
Help me out
'Cause I need something up to calm me down
Help me out, out I don't mean to bother you
But there's something that I want from you
Distract me from thinking too much
Loose ends all tied up with a touch
Ooh I need some temporary saving
Ooh I need some, some uncomplicating Help me out
'Cause I don't wanna do this on my own
Help me out, out
Help me out
'Cause I need something up to calm me down
Help me out, out Hey hey, I know that there will come a day
When you, you need somebody to
Hey hey, I know that there will come a day when
When you, you need somebody to
Help you out
Help me out
Help me out
Help me out, out
Help me out
'Cause I don't wanna do this on my own
Help me out, out
Help me out
'Cause I need something up to calm me down
Help me out, out And hey hey, I know that there will come a day
When you, you need somebody to
Hey hey, I know that there will come a day when
When you, you need somebody to
Help you out
Help me out
Help me out
Help me out, out
