

# I'm Waiting Here

David Lynch & Lykke Li

I'm waiting here  
Can't we draw never fulfill these here  
I move nowhere only to find you here  
Your deepest hell, never the same as them  
Keep me low where the horizon melts  
I'm waiting here  
We made love  
Under a dark moon  
I've burned a lot of  
Some castles were made of sand  
Only then  
Can I alone look at the sky my dear  
I am right, every falling star  
Make a wish, it will turn away  
So we can love on til infinity  
Here  
I'm waiting here  
Here  
I'm waiting here
