

Too Quick (feat. Kingston)

Fat Joe & Remy Ma

We running through this money too quick, too quick
These women want commitment too quick, too quick
I hit the light and pulled off too quick, too quick
She told me that I make her cum too quick, yeah
Too quick, too quick
Too quick, too quick
Too quick

She told me that I make her cum too quick, yeah I really live what's in my music, true shit

I'm number one, you number two, bitch, stupid
I make 'em come and leave with new shit, exclusive
Throw up my feet because my shoes too sick, I dos this
AP in the AM, by the afternoon the jewels switch
Day to day, there's so many chains, I can outdo Rick
Cuban, Kilo, Figaro, I'm too lit
Take a BAC to the helicopter, landed on a cruise ship
Fuck a glass shipper, I ain't making sure no shoe fit
You be Cinderella, I'm Snow White, move bricks
8-balls remind me the dick longer than pool sticks
Thicker than a Snicker, now I eat the pussy with Cool Whip
We running through this money too quick, too quick
These women want commitment too quick, too quick
I hit the light and pulled off too quick, too quick
She told me that I make her cum too quick, yeah
Too quick, too quick
Too quick, too quick
Too quick

She told me that I make her cum too quick, yeah I told her bring another, now we in another

Wraith
They don't want us filling up another safe
She'll be my Khaleesi, we'll be sitting on a throne
Playing with fire, minks draggin' on the stones
It ain't nothin' to the Don Cartagena
Played Martin on the lot and gave the car to Gina
If I said it then I meant it, lames never get credit
Condolences to your ex, he should've known you deaded
All the steaks at Maestro's
Suites at St. Regis
Haters gon' hate 'cause they never goin' to where we been
And we just busy buyin' out the latest in the stores
While they just busy fightin' over singles on the floor
We running through this money too quick, too quick
These women want commitment too quick, too quick

I hit the light and pulled off too quick, too quick
She told me that I make her cum too quick, yeah
Too quick, too quick
Too quick, too quick
Too quick

She told me that I make her cum too quick, yeah
Too quick, too quick

These women want commitment too quick, too quick

I hit the light and pulled off too quick, too quick
She told me that I make her cum too quick, yeah
Too quick, too quick
Too quick, too quick
Too quick

She told me that I make her cum too quick, yeah
