

# Baby Face

## Thin Lizzy

Put up, Baby Face  
I love your lipstick, Baby Face,  
it makes me all shades of red  
Give me wild while you do to me one,  
make me hot when I should be sleeping in my bed  
I love your big eyes, Baby Face,  
they seem to suggest much more than you say  
I love the mark in your secret place, oow Baby Face  
Love is like a peppermint machine, that's green, it's green  
I love your hair down, Baby Face,  
and I can picture ya as you do, oow, with your fingers running through  
I love ya, Baby Face,  
the way you bite your lips, ooo... ow!  
How 'bout (the) Baby Face? {repeat 17 times}
