

# Ring Ring

MIKA

I was sittin' on the fence and I thought that I would kiss you  
I never thought I would have missed you  
But you never let me fall, push my back against the wall  
Every time you call, you get so emotionall'm freaking out  
Ring, ring, is that you on the phone?  
You think you're clever, but you never saying nothing at all  
Hey, hey, the way you spin me around  
You make me dizzy when you play me like a kid with a crown  
You got a dangerous obsession  
Now I'm in need of some protection  
That was never my intention  
Used to love me, now you hate me  
Say I drove you crazy, well, if I did, you made me  
Won't somebody save me from you now?  
Ring, ring, is that you on the phone?  
You think you're clever, but you never saying nothing at all  
Hey, hey, the way you spin me around  
You make me dizzy when you play me like a kid with a crown  
Each word I wanted until you  
blasted it  
Why won't you leave me alone?  
Hang up the phone, just let me go  
Ring, ring, is that you on the phone?  
You think you're clever, but you never saying nothing at all  
Hey, hey, the way you spin me around  
You make me dizzy when you play me like a kid with a crown  
Ring, ring, is that you on the phone?  
You think you're clever, but you never saying nothing at all  
Hey, hey, the way you spin me around  
You make me dizzy when you play me like a kid with a crown  
Ring, ring  
Ring, ring  
Ring, ring
