

# No Ordinary Morning

## Chicane

If there was nothing that I could say  
Turned your back and you just walked away  
Leaves me numb inside, I think of you  
Together is all I knew We moved too fast but I had no signs  
I would try to turn the hands of time  
Then looked to you for a reason why  
The love we had passed me by And as the sun would set you would rise  
Fall from the sky into paradise  
Is there no light in your heart for me?  
You've closed your eyes, you don't longer see There were no lies between me and you  
You said nothing of what you knew  
But there was still something in your eyes  
Left me helpless and paralyzed  
You could give a million reasons, change the world and change the time  
Could not give me the secrets of your heart and of your mind  
In the darkness that surrounds me, now there is no peace of mind  
Your careless words undo me, leave the thought of us behind You could give a million reasons,  
change the world and change the time  
Could not give me the secrets of your heart and of your mind  
In the darkness that surrounds me, now there is no peace of mind  
Your careless words undo me, leave the thought of us behind If there was nothing that I could  
say  
Turned your back and you just walked away  
Leaves me numb inside, I think of you  
Together is all I knew We moved too fast but I had no signs  
I would try to turn the hands of time  
Then looked to you for a reason why  
The love we had passed me by  
And as the sun would set you would rise  
Fall from the sky into paradise  
Is there no light in your heart for me?  
You've closed your eyes, you don't longer see There were no lies between me and you  
You said nothing of what you knew  
But there was still something in your eyes  
Left me helpless and paralyzed
