Travis County

Gary Clark Jr.

Travis County took my picture But no, I didn't smile They told me I was gonna be here For a pretty long whileOne day I was walking down the street when I should've been walking down the hall Heard a voice calling out, saying "Ooh, where you going, y'all? Now before I could've gathered my thoughts I turned around and I saw the cops Oh boy did my heart sure drop when He told me I better stop Ooh, oohOh, they put my hands in cuffs Oh boy, they even locked me up When I thought that it was all Till they started taking all my stuffNow I'm sittin' 'round in my cell Just a looking at the wall I didn't even get to make My one phone call After I was just sittin' 'round You know I started getting down When they let me out
