

Long Way to Go

The Dead Daisies

There's something going down on the streets right now
Hate in the air we're upside down yeah Guns and bombs blood on the floor
Killing ourselves and there ain't no cure Maybe tomorrow, maybe today... No more enemies
No more anarchy
Just more suffering We got a long way to go
And no time to get there
One step forward two steps back
There ain't nobody to blame
Something's going on times are changing
Moving too fast we all gone crazy
Black man white man no despise
In the name of love open your eyes Maybe tomorrow, maybe today... No more love and hate
No more hope and faith
No more time to waste We got a long way to go
And no time to get there
One step forward two steps back
We're stuck in the middle
And way off track
We got a long way to go
And no time to get there
Say what you will
Do what you want
There ain't nobody to blame
