

# Dark Things

## VIC MENSA

[Chorus]

Dark things in my mind again  
I don't wanna have a bad night again  
I might lose my mind again  
I might lose my mind again  
Dark things in my mind again  
I don't wanna have a bad night again  
I might lose my mind again  
I might lose my mind again

[Verse 1]

Don't relapse (wait) hold up, don't relax (yuh)  
Heart attack, ice inside my cartiac  
I'm a sicko, I'm a fucking hypochondriac  
Fuck the pain away, beat it like a 808  
And I know I said I quit drugs last time  
That was last time, life in the fast lane  
H-H-Hydroplaning off a flat, might flatline  
If I let the brains blow, that's a landmine  
I need you to love me like I never loved me  
Everyone around me want something from me  
Pretty girls want truth but the truth is ugly  
She don't even like me, she just wanna fuck me!  
Feel like Amy Wine again, this is absinthe, not Heineken  
25, running out of time again, 27 Club, how can I get in?

[Chorus]

Dark things in my mind again  
I don't wanna have a bad night again  
I might lose my mind again  
I might lose my mind again  
Dark things in my mind again  
I don't wanna have a bad night again  
I might lose my mind again  
I might lose my mind again[Verse 2]  
I'm fine, just a little fucked up (up!)  
Crush a blue pill, put it in a red cup (cup!)  
Call up the plug, now I'm in The Matrix (ayy!)  
Like I'm Morpheus, turn my morphine up (turn up!)  
All these demons in my nightmares  
I can run but I can't escape the night terrors, every night  
Yuh, lost in despair but you don't even care and I'm not scared  
I'm a monster, am I scaring you?  
Way I'm driving, like I'm Death Proof

So trust me, judge me  
If you love me, just love me as I am[Chorus]  
Dark things in my mind again  
I don't wanna have a bad night again  
I might lose my mind again  
I might lose my mind again  
Dark things in my mind again  
I don't wanna have a bad night again  
I might lose my mind again  
I might lose my mind again[Outro]  
How, how am I supposed t-  
How am I supposed to stop being crazy?  
How? How? How?  
How I'm 'gon stop?
